1 **Examiner Interview**

2 A telephone interview was conducted on October 22, 2007 between
3 Examiner Marisol Figueroa and Emmanuel Rivera. In the interview, a discussion
4 took place as to amendments to overcome the cited references. In particular, it was
5 agreed that the cited references do not teach elements of “determining available
6 communication services to the user based on the location of the wireless
7 communication device; determining whether an available communication service
8 is to be used based one or more of the following user defined conditions of time of
9 day and location; selecting an acceptable available communication service; and
10 forwarding calls to the acceptable available communication service.”

11 Independent claim 26 has been amended to include these particular
12 elements. A request for continued examination will be filed with this response.
13 Examiner Figueroa indicated that if during the new search, new art is found that
14 may be used in rejecting the claims, a call will be made to Mr. Rivera before a new
15 Office Action is sent.
